

H030 : BLITZ

CONCENTRATED ACID CLEANER

BLITZ	H030
-------	------

concentrated acid cleaner

description	* Ideal for cleaning brake dust and badly stained wheels. * Contains special inhibitors to minimise acid attack on base metals.
directions	Dilute up to 4:1 for heavy rust. Apply by brush and rinse thoroughly. For descaling pressure washer boilers, flush through the system at 2:1 dilution. Rinse thoroughly with water. NOTE: THIS IS AN ACIDIC PRODUCT. Do not use on aircraft. Do not use on magnesium alloy wheels or on wheels that have been finished with a decorative anodised effect. If in doubt seek manufacturer's advice. Keep off paintwork and never allow product to dry on.

Technical	
	Composition An aqueous blend of hydrochloric acid, nonionic surface active agents, a rust inhibitor and dye.
	Appearance Clear thin liquid
	Colour Red
	Density 1.10
	pH <1
	Fragrance Acidic
	Stability Two years minimum in unopened containers
Biodegradability	All surfactants contained in Selden Products meet the requirements of the EU Detergent Directive 2005 – 2004/648/EC. This requires all surfactants to break down both quickly and completely into harmless material such as CO2 and water.

Product is for professional use only.
